

## BUTTER SHORTAGE, WHICH IS GENERAL, INCREASES PRICES

Product Advances Three  
Cents In Week, And May  
Go Higher.

## EGG QUOTATIONS ALSO MOVE UP

Meats And Sea Foods Remain  
About Same—Vegetables  
In Plenty.

According to the prediction by The Times of last Friday, the retail price of butter has been advanced 3 cents per pound, within the last week. Practically all dealers have made the advance, which, they say, follows a general advance in the wholesale cost of the dairy product.

It also is predicted by dealers that a further advance in the price of butter will go into effect next Monday. Reports sent the Washington dealers by his wholesalers in butter, show that there is a shortage of 15,000,000 pounds of butter today, as compared with one year ago today.

**Eggs Also Advance.**  
It is claimed that the dry pastures of the summer, and the generally high price of feed, has caused the rise, and that fewer dairy cattle are being kept. There is so little storage butter, dealers say, that the highest prices on dairy products for years will be recorded this winter.

A slight advance on the price of eggs is noticed, and it is claimed that they are hard to get at any price. Beef and pork prices remain practically the same level as a week ago, although dealers maintain that advances will be necessary before long. Sea foods and poultry remain about the same.

The supply of vegetables on the Washington markets is especially good at this time, and prices are comparatively reasonable. The late rains helped the vegetable crop very much.

## Washington Baseball Fans Leaving to Attend World's Series Games

## WASHINGTON FANS BEGIN EXODUS FOR THE WORLD SERIES

Prominent Party On Way To  
Quaker City By Automobile—Special To Run.

By "SENATOR"

Washington's exodus of baseball fans for the world's series has begun. In two automobiles a party of eleven left here yesterday, expecting to arrive at New York tonight, giving them plenty of time to rest before the opening game tomorrow afternoon.

In the first car, a Cadillac, were B. W. Woodruff, George Weaver, Louis Weaver, and Charles Williams, while in the second, an Oldsmobile, were Tayloe Pollock, Robert Callahan, Jr., "Ed" Walsh, "Joe" Crawford, "Tom" Keane, and George Mills. The car was driven by R. C. Miller.

The trip was made by way of Reading, where the stop was made last night. The party started early this morning, and expects to be on Broadway before sundown. The next big party of prominent

## Washingtonians will leave here this afternoon at 3 o'clock, on a special observation train on the Royal Blue limited. Among those to be on this car are: "Fred" Smith, Conrad Becker, "Dave" Dunnigan, W. C. Johnson, Harry Wardman, "Tom" Bones, Dick Beall, John Green, Harry Kaufman, Harry Kline, Meyer Cohen, Arthur Plant, Charles Allen, J. M. Stoddard, and M. A. Keane.

The majority of the large Washington contingent will leave here immediately after office hours today, although the reports from the Union Station are that there is a strong demand for reservations on the late night train, and it would be advisable for all who intend to take sleepers to obtain their berths without further delay.

There is every indication that Washington's contingent for the two opening games, at least, will be the largest that ever has left this city for any sporting event, and the number probably would be doubled were it possible to obtain the tickets.

Word reached Washington today that Vice President Sherman will be at the big series. He is now touring, but is headed toward New York, and will be in a box Saturday.

## Alliance Semi-Monthly Meetings Are Resumed

Semi-monthly meetings of the Branch Alliance of All Souls' Unitarian Church, were resumed this morning at 11 o'clock. Discussion of the year's work was made, and plans for the entertainment of delegates to the convention of the National Unitarian Association, which meets here October 23 to October 27, were taken up.

Tonight the Sunday school of All Souls' Unitarian Church will hold a rally sociable at 7:30 o'clock.

## Claims Court Opens With Heavy Docket

The Court of Claims of the United States will convene next Monday at 11 o'clock. During the summer recess 406 new suits have been instituted, embracing questions of constitutional law, contracts, patents, and interpretation of the statutes involving large amounts.

There were 27 cases on the December, 1910, trial calendar, of which 111 cases were argued or submitted. The court has given its opinion and conclusions of law in most of the cases. In addition to the 27 cases on the trial calendar, there were 125 cases on the law docket, and of this number fifty-one were heard and disposed of.

The judges of this court are Chief Justice Stanton J. Peelle, Judge Charles B. Howry, Judge Fenton W. Booth, Judge Samuel S. Barney, and Judge George W. Atkinson.

The annual term begins on the first Monday of December.

## War Checks American Research At Cyrene

The American Archaeological Society has abandoned its plans for digging further into the ruins of Cyrene on account of the Tripolitan war, and as a result the American cruiser Chester, which was sent to the Mediterranean to protect the expedition, will be ordered home.

This is the information given out at the State Department today. Supt. R. A. Morton, of the expedition, who had gone ahead to prepare for the further work now is aboard the yacht of Allison Armour, of Chicago, now at anchor in the harbor at Malta.

The Archaeological Society last year unearthed some valuable historical work, but found the natives so hostile that the work was abandoned temporarily. One member of the party was murdered by the Arabs. This year the society had secured the protection of an American cruiser, but the state of war in Tripoli has made the exploration at this time impracticable.

## TONSILINE Really Does Cure SORE THROAT

TONSILINE We think this name a happy one. It almost tells its own story. You at once think of the tonsils. They are the most sensitive part of the throat. Throat troubles generally start with the tonsils, hence the name of our throat remedy—TONSILINE.

THE THROAT It is the gateway to the body. The air we breathe, the food we eat, and the water we drink, all pass through it. If this passageway is poisoned or diseased or infected with germs, the entire body soon absorbs the contagion. The slightest ailment of the throat is a danger signal. Think of it and you will realize that this is the commonest kind of common sense.

SORE THROAT Too many people imagine that a sore throat is only a simple little ailment. They think that it is something that comes today and is gone tomorrow. They neglect it. They put it off, thinking every day that it will be better tomorrow. Many a sad mistake has been made in this way.

A sore throat is never a little ailment. If every mother could realize the real danger that lurks behind every case of Sore Throat, she wouldn't rest until she had effected a cure every time a child has it. Your family physician will tell you it is a positive fact that every child with Sore Throat is in real danger of contracting Croup, Quinsy, Tonsillitis or Diphtheria and is not removed from that danger until the throat is cured. Sore Throat is a specific and well defined disease. It is the most common throat disease. That is why Tonsiline is specially prepared as a Sore Throat Cure. That is why nearly all who talk are about Sore Throat and the fact that Tonsiline cures it so surely and quickly.

A Letter From the Superintendent of the Chicago Insurrection Home for Children. Dear Sir—Just of late I have had occasion to use Tonsiline in my family for my wife, my daughter and myself. We have had some colds and very sore throats. We found, by using your remedy, Tonsiline, almost instant relief and, by using a few doses, a permanent cure. We are all highly pleased with the remedy. Sincerely yours, J. D. KELLEY, Superintendent, Chicago, Ill.

## PENNSYLVANIA RAILROAD

**Bulletin.**  
DIRECT TRAIN SERVICE TO DOWNTOWN NEW YORK

The operation of electric service, since October 1, from Manhattan Transfer through to the Hudson Terminal Station by the Pennsylvania Railroad and the Hudson & Manhattan tubes gives passengers from Washington a practically direct service to the financial and business district of lower New York City.

Previous to October 1st it was necessary to transfer to a steam train at Manhattan Transfer, and then to change at Jersey City to the tube or ferryboat. Now the only change required is a few steps across the platform at Manhattan Transfer to a waiting electric train which delivers the passenger at Church, Cortlandt and Dey Streets (Hudson Terminal), one block from Broadway, in sixteen minutes, without change at Jersey City.

This service obviates the old method of leaving the steam train at Jersey City, descending to the tube level, or waiting for a ferryboat, and not only greatly reduces the time in transit, but eliminates from the trip the physical discomfort of walking through the station at Jersey City.

The electric trains simply pick up the downtown passengers at Manhattan Transfer and carry them, after a quick and comfortable run, to the heart of downtown New York, from which every business building in that section is easily accessible by foot or the usual methods of mid-city transportation.

Passengers from any given train may reach downtown Broadway at practically the same time as those who kept the train to Pennsylvania Station can reach uptown Broadway.

Travelers who have business in the lower section of New York cannot fail to appreciate the easy and expeditious facilities of getting there which this excellent service provides.
